PROFESSIONAL SUMMARY

MERN Stack Developer with a strong foundation in JavaScript, React.js, Node.js, Express.js, and MongoDB. Experienced in building responsive full-stack web applications, RESTful APIs, secure authentication systems (JWT & OAuth), and optimized database solutions. Currently working as a Data Analyst with proven results in data enrichment, process optimization, and delivering high-accuracy outputs. Passionate about clean code, modern UI/UX, and contributing to innovative software teams.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, React Hooks, React Router, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Google OAuth, Middleware, MVC Architecture

Database: MongoDB, Mongoose, MySQL

Languages: JavaScript, SQL, Python, C++

Tools & Platforms: Git, GitHub, VS Code, Postman, MongoDB Compass, npm, Excel (Advanced + VBA), Power BI, Databricks

PROFESSIONAL EXPERIENCE

eClerx, Mumbai

Jan 2025 – Present

Data Analyst

- Delivered error-free data outputs on time across 5+ client projects, increasing efficiency by 30–40% while supporting smooth deliveries and profitability goals.
- Supported SKU enrichment for 2,000+ items and effective workload management, improving team efficiency and process flow by 35%.
- Developed category mapping for a pilot project across industrial categories and built custom data models, standardizing 500+ attributes with 95%+ accuracy.
- Performed attribute enrichment on key projects, filling gaps for thousands of records and boosting dataset completeness and quality by 25–40%.
- Created comparative analysis presentations and data comparison reports for multiple product lines, enhancing team clarity and decision-making.

PROJECTS

MERN Blogging Platform

Technologies: React.js • Node.js • Express.js • MongoDB • JWT • Google OAuth • Tailwind CSS

- Developed a full-stack blogging platform with secure user authentication using JWT and Google OAuth.
- Built RESTful APIs following MVC architecture for blog creation, editing, publishing, drafts, comments, likes, and user profiles.
- Implemented rich-text editing, search, notifications, analytics dashboard, role-based access, and protected routes.
- Designed a responsive modern UI with optimized MongoDB queries and React Hooks for efficient state management across devices.

INTERNSHIPS

Forum WebApp Development — Tinkerer's Lab, VESIT

Jun 2021 – Jul 2021

- Developed a responsive web application using HTML, CSS, and MongoDB; designed database schemas and frontend interfaces with Git-based collaboration.

Object Identification Using IoT — VESIT

Jun 2022 – Jul 2022

- Worked on an IoT-based object identification system, gaining hands-on experience in sensor integration and real-time data processing.

EDUCATION

Vivekanand Education Society's Institute of Technology, Mumbai

2023

B.E. in Electronics Engineering | CGPA: 8.46

Pace Jr. Science College

2019

HSC (Science Stream)

Suyash Central School

2017

SSC
